

## **CALCULATIA COSTURI PENTRU INFRASTRUCTURA / CALCULATING INFRASTRUCTURE COSTS**

*Prof. univ. dr. Paunica Mihai – Directorul General al Directiei Generale Buget - Finante din  
Ministerul Educatiei si Cercetarii*

***Abstract:** Railway infrastructure consists of railway lines and railway embankments, stations and travel goods and technical equipment of command and control. This paper deals with issues concerning calculation of costs at a passenger and cargo, such as calculating the tariff to use the infrastructure (TUI).*

*Keywords: costs, calculation, railway infrastructure*
